Our Thanks to You and Customer Assistance

Introduction

Our Thanks to You

Thank you for purchasing a CobraMarine® VHF radio. Properly used, this Cobra® product will give you many years of reliable service.

How Your CobraMarine VHF Radio Works

This radio is a battery-powered portable transceiver for use afloat. It gives you two-way vessel-to-vessel and vessel-to-shore station communications, primarily for safety and secondarily for navigation and operational purposes. With it, you can call for help, get information from other boaters, talk to lock or bridge tenders, and make radiotelephone calls to anywhere in the world through a marine operator.

Besides two-way communications, the radio can provide quick access to receive all the NOAA (National Oceanographic and Atmospheric Administration) weather channels and alert you to weather emergencies with a tone on a weather channel you can select for your area.

Global Positioning System (GPS)

Your Cobra Marine radio includes a built-in GPS receiver. Your position will be continuously indicated on the LCD and, most importantly, it will be included automatically with any DSC Distress message you may need to send. That will take the "search" out of "search and rescue".

Customer Assistance

Customer Assistance

Should you encounter any problems with this product, or not understand its many features, please refer to this owner's manual. If you require further assistance after reading this manual, Cobra Electronics offers the following customer assistance services:

For Assistance in the U.S.A.

Automated Help Desk English only.
24 hours a day, 7 days a week 773-889-3087 (phone).

Customer Assistance Operators English and Spanish.

Backlit Screen and Product Features

Introduction

Backlit Screen

Product Features

Built-In GPS Receiver

Shows GPS coordinates on screen and automatically sends GPS location with DSC calls.

Digital Selective Calling (DSC Class-D)

Allows the ability to maintain a listening watch on VHF Channel 16 while simultaneously monitoring Channel 70 for DSC calls. Allows sending a distress message at the touch of a button as well as specific station-to-station calls. Radio utilizes two (2) built-in encoders (receivers).

MicroBlue™

Bluetooth® Wireless Technology in a unique noise canceling design. Widely compatible for all mobile phones with Bluetooth® wireless technology.

Easy Redial Operation

Redial of last phone number dialed.

Voice Dialing

Supports standard mobile phone voice dialing when paired to a compatible mobile phone.

Floating

This radio will float if dropped overboard. It has an orange stripe so it's easy to retrieve. Must use included battery to float.

Rewind-Say-Again®

Replays missed VHF calls.

6 Watt VHF

Select between 1, 3 or 6 watts for short and long range communication.

Flashlight/S.O.S. Light

The radio can be used as a flashlight, strobe light or S.O.S. signal. The light flashes when dropped in the water.

Submersible to IPX8 Standards

Waterproof to 3.3 ft (1 m) of water for 30 minutes.

All NOAA Weather Channels

Instant access to all National Weather Channels, 24 hours a day.

Emergency Weather Alert

Receive NOAA alerts when threatening weather is nearby.

Product Features

Introduction

Product Features (continued)

MOB (Man Over Board)

The radio dedicated MOB button marks and memorizes the position information if a crew member falls overboard.

Noise Canceling Microphone

Reduces effect of environmental noise when speaking.

Basic Navigation

Basic navigation features include digital compass, waypoint navigation, course, speed, etc.

USA/International/Canada Channels

Allows operation on any of the three (3) different channel maps established for these areas.

BURP

The Cobra exclusive BURP feature expels water from the speaker grill if the unit is dropped in the water or is subjected to extreme rain and weather.

Speaker/Mic Jack

Allows connecting optional Cobra Lapel Speaker/Mic and other Cobra accessories.

Instant Channel 16/9

Provides instant access to priority Channel 16 and calling Channel 9.

NMEA Out

NMEA 0183 output to display other vessels and their information transmitted by DSC or your chartplotter.

Unlimited Memory Channels

Allows programming of unlimited VHF memory channels.

Tri-Watch

Use to monitor three (3) channels at once — Channel 16, Channel 9 and one other selected channel.

Channel Names

Friendly VHF channel names under the channel number.

Channel Scan/Memory Scan

Use to scan through unlimited channels or memory locations to find conversations in progress.

Signal Strength Meter

Shows the strength of incoming or outgoing signals.

Button/Key Lock

Prevents accidental setting changes when button lock is set.

Illuminated Buttons

Allows high visibility of all function buttons.

AA Battery Compatible

Good for emergency backup. Includes AA battery tray (P/N CM 110-035).

120V/12V Charger Included

Use to charge battery pack, at home, in a car or in a boat.

Locking Desktop Charger

Holds the radio or battery in place while charging. Vertical or horizontal mounting.
